FLORISTRY TERMS EXPLAINED

Don't know the difference between a posy or a bouquet? No problem. We're here to explain the most common types of floral arrangements and make it easy for you.

LUXE BOUQUET

The perfect statement piece for a bride on her wedding day. Featuring up to 10 luxe varieties of flowers to bring her dream bouquet to life.

LONG-STEMMED BOUQUET

A very cost effective and modern style of bouquet. Most commonly in all white or with hints of blush, these long stemmed beauties are divine!

ALTAR ARRANGEMENT

Not a fan of an arbour? Create a statement floral arrangement instead. We love using pedestals, pillars or tall plinths to create a stunning altar for you to say “I Do”.

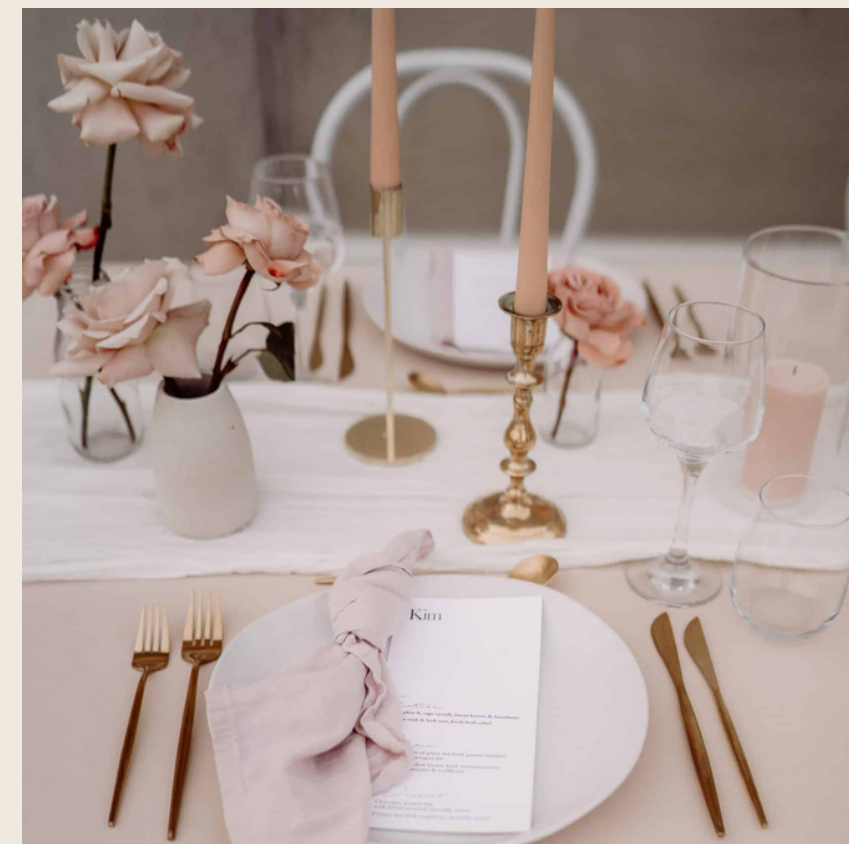

BRIDAL TABLE ARRANGEMENT

Something a bit more special for the bridal table. A slightly longer version of our standard flower cloud. Created in oasis foam so you can easily see over the arrangement.

TABLE FLOWER CLOUD

A modern take on the traditional vase for the tables. These clouds are low enough for guests to see over but still have varying height for visual appeal.

BUD / SINGLE STEM VASES

Very budget friendly and still visually beautiful! We recommend small clusters of large roses and focal flowers for maximum impact.

FLAT-LAY RUNNER

We cut and arrange the foliage on site / at the venue. You have the option to have foliage or add in pops of colours with flowers.

BELLY POT ARRANGEMENT

A timeless flower arrangement for your table. Low enough for guests to see over but still have varying height for visual appeal.

CEILING INSTALLATION

Foliage arrangements hung from the ceiling sometimes with flowers and or drop down lights. We supply the foliage, rigging and installation as well as pack-down.
